This informal gathering is mostly oriented towards juniors and seniors who cannot resist the appeal and excitement of staying at school for a few more years.

Math Sciences faculty members will discuss their perspective on the issues involved:
- Application process. Graduate school admission criteria
- Overview of our favorite graduate schools in Mathematics (including Applied Mathematics and Operations Research)
- External fellowships
- Role of the class work and research experience
- Recommended course work

Faculty panelists: Profs. I. Herron (Graduate Committee Chair), M. Holmes, P. Kramer, G. Kovačič, J.-S. Pang, and V. Roytburd

Lunch will be provided
RSVP: Megan Goodrich, Math Department Undergrad Coordinator, goodrm@rpi.edu

Partially supported by the NSF Grant Computational Science Training for Undergraduates in the Mathematical Sciences (CSUMS)
