

Applied Math Days

April 6-7, 2018
Rensselaer Polytechnic Institute

Applied Mathematics Days is a two-day seminar series during which postdoctoral fellows and graduate students from universities in the Northeast gather for a two-day seminar series to present informal talks about their current research projects. Plenary talks will be presented by leading researchers in applied mathematics.

The meeting is open to the public and those interested in pursuing graduate or postdoctoral research in applied mathematics are particularly encouraged to participate. Limited travel support is available for those who attend.

Organizers: Mark Holmes, Gregor Kovacic, and Fengyan Li

More detailed information and registration is available at:
